Leonardo da vinci

Leonardo Da Vinci

He was a Scientist, Inventor and Artist. He was born in Anchiano, Italy on April 15, 1452 to his parents Caterina da Vinci and Piero Fruosino di Antonio da Vinci. He died May 2, 1519 at the age of 68.
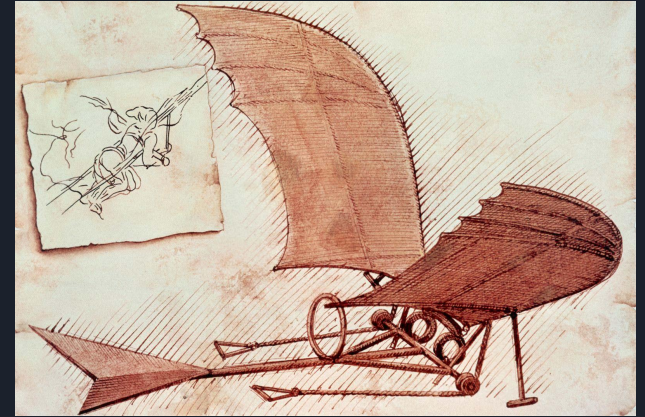

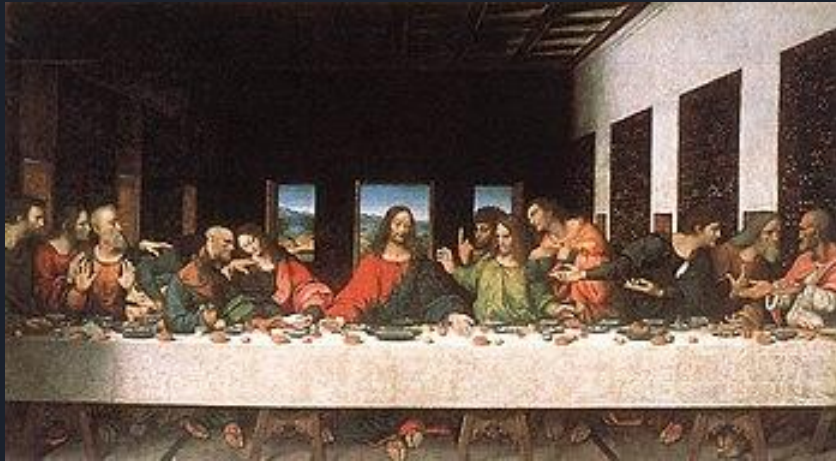

He was known for...

Mona Lisa

The Last Supper

The flying moshen

which was thought to be the first helicopter

He was strongly influenced by...

John Argyropoulou
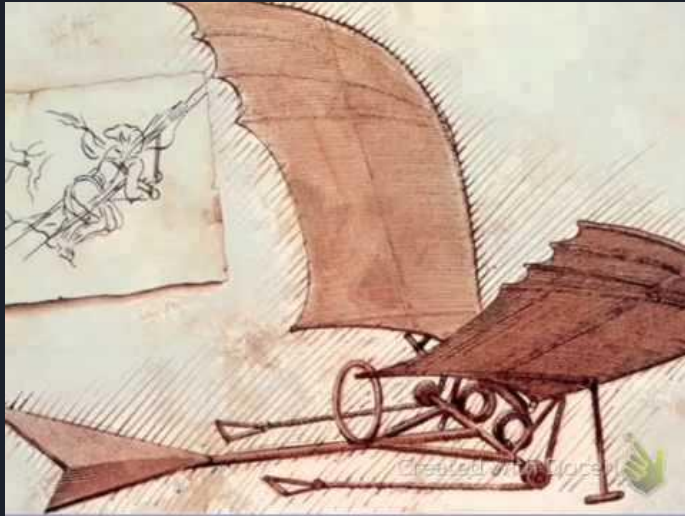

Lorenzo de' Medi

Andrea del Verrocchio

The Helicopter

He designed the first helicopter called the flying machine. He never actually made it. So there is some debate on whether it would work or not.

Why I chose his?

I chose him because I aspire to be an artist and he inspires me with he painting.
